

Science Reports

4 IODP Expeditions 303 and 306 Monitor Miocene-Quaternary Climate in the North Atlantic

James E.T. Channell, Tokiyuki Sato, Toshiya Kanamatsu, Rüdiger Stein, Mitchell Malone, Carlos Alvarez-Zarikian, and the IODP Expeditions 303 and 306 Scientists

11 IODP Expedition 307 Drills Cold-Water Coral Mound Along the Irish Continental Margin

Timothy G. Ferdelman, Akihiro Kano, Trevor Williams, and the IODP Expedition 307 Scientists

Progress Reports

- 17 The 2005 Lake Malawi Scientific Drilling Project
- 20 Lake Qinghai Scientific Drilling Project
- 23 NanTroSEIZE: The IODP Nankai Trough Seismogenic Zone Experiment
- 28 Borehole Observatory Installations on IODP Expedition 306 Reconstruct Bottom-Water Temperature Changes in the Norwegian Sea
- 32 SAFOD Penetrates the San Andreas Fault

Technical Developments

- 34 New Developments in Long-Term Downhole Monitoring Arrays
- 37 Non-Destructive X-Ray Fluorescence (XRF) Core-Imaging Scanner, TATSCAN-F2
- 40 The Fully Electronic IODP Site Survey Data Bank

Program Developments

- 43 Conference on Continental Scientific Drilling: Defining Future Goals
- 46 New U.S. Drillship to Join IODP in 2007
- 48 Data Management in the IODP

Workshop Reports

- 50 Recent Advances in Research on Terrestrial and Marine Sequences From the Mid-Cretaceous Oceanic Anoxic Events (OAEs)
- 52 Core-Log-Seismic Integration—New Scientific and Technological Challenges
- 54 3-D Seismic Reflection Imaging Workshop 2005—Opportunities for IODP Site Survey Collaboration
- 56 ICDP Workshop on the Emerging Modern Aerobic Earth System
- 57 Upcoming Workshops

News and Views

- 59 News
Shaldril, Andriil, NELSAM, Chesapeake Bay Drilling, ESSAC Office moved, IODP Sample, Data, and Obligations Policy

Schedules
